

# Notice to Suppliers

## AS9102 Aerospace Series-First Article Inspection Requirement Rev C

**Originator:** Carrie Sharkey  
**Job Title:** Manufacturing Engineering Program Manager  
**Business Unit:** Civil and Defence Aerospace

**NTS Number:** 601  
**Issue:** 1  
**Date:** 06 February 2024

For the attention of the Quality Manager

### Scope/Applicability:

All suppliers of Rolls Royce Aerospace Supply Chain (Civil & Defence product).

**Dear Supply Partner,**

### Introduction:

Requirement of First Article Inspection Reports is flowed to the supply chain via SABRe and AS13100 which requires compliance to AS9102. AS9102 Aerospace Series-First Article Inspection Requirements has recently been published to Rev C.

To see a summary of changes, please refer to the IAQG (International Aerospace Quality Group) website ([9102 First Article Inspection Requirement – IAQG](#)). **Rolls Royce will mandate the use of Rev C on 1st January 2025.** Currently, Net Inspect allows for the use of either Rev B or Rev C forms. Please start to get familiar with Rev C and the new forms. Feel free to submit FAIRs using Rev C forms when you are ready, ahead of the mandatory date.

### Action Required:

- Suppliers should become familiar with the updates to AS9102 Rev C. Additional information can be found below:
  - A recorded webinar (56 minutes) along with a published guidance manual on AS9102 Rev C can be found on the SCMh (Supply Chain Management Handbook) website ([SCMH - Make - IAQG SCMh](#)). If you are not a registered member of SCMh, you will be required to register before the link takes you directly to the webinar and guidance manual.
  - Net Inspect has summarized the details along with visuals for changes to the forms which can be found here, [AS9102 First Article Inspection Report Rev B vs Rev C | Net-Inspect](#). Net Inspect recently held multiple webinars explaining the move to Rev C. A recorded webinar (9 minutes) can be found here, [Net-Inspect \(vimeo.com\)](#).
- Plan to submit any new FAIRs using Rev C forms at your earliest convenience and any FAIRs submitted after 1st January 2025 **must** be to Rev C.

### NTS Category:

Engineering/Technical
