

## Sale of Energy Business – Changes to SAP Plant Code 1300

**Originator:** Iain Foster  
**Job Title:** Manager – Mergers & Acquisitions  
**Business Unit:** Mergers & Acquisitions

**NTS No:** 362  
**Issue:** 2  
**Date:** 8<sup>th</sup> August 2014

For the attention of the Managing Director.

**Dear Sir or Madam,**

### Scope/Applicability:

All suppliers to the Rolls-Royce Energy business.

### Introduction:

Further to our communication on 30<sup>th</sup> July we have now completed the internal transfer of schedule agreements and purchase orders into our company code for Industrial Turbine Company (UK) Limited.

### Action Required:

What does this transfer to Industrial Turbine Company (UK) Limited mean for your company?

- In line with the change of company name you will now receive your purchase order and schedule agreement requests from 'Industrial Turbine Company (UK) Limited' rather than from Rolls-Royce Power Engineering plc (RRPE). Some of you may have received copies during last weekend due to an issue with our upload, therefore on this occasion please disregard any copies received from 2<sup>nd</sup> – 3<sup>rd</sup> August.
- Your invoices are now settled by 'Industrial Turbine Company (UK) Limited' rather than by RRPE.
- Existing purchase order and schedule agreements with RRPE have been mapped to new agreements for 'Industrial Turbine Company (UK) Limited'. You will receive an overview in regards of the alignment of your new numbers and correlation to old agreements
- Industrial Turbine Company (UK) Ltd new organisational mapping for plants will be:

Energy Plant No	Industrial Turbines (UK) Ltd. Plant No
1301	NC01
1302	NC02
1303	NC03
1313	NC13
13LA	NCLA

For schedule agreements

- It is expected that MRP will run during this weekend (9<sup>th</sup> – 10<sup>th</sup> August) and delivery schedules will be received on Monday 11<sup>th</sup> August.
- Please ensure all shipping labels and associated paperwork continue to conform to SABRe requirements and are changed and updated with the new schedule agreement numbers (communicated to you directly) and above plant structure. Please liaise with your MRP Controller should you have any issues relating to the change.

If you have any further queries relating to this matter, please contact your normal Rolls-Royce MRPC and/or Buyer contact.
