

# Notice to Suppliers

## Conflict Minerals Due Diligence

**Originator:** Alan Seed  
**Job Title:** Head of Sustainable Procurement  
**Business Unit:** Group Procurement

**NTS Number:** 626  
**Issue:** 1  
**Date:** 04 April 2025

For the attention of Managing Directors and Chief Sustainability Officers

### Scope/Applicability:

Suppliers of product to any Rolls-Royce business during the 2024 calendar year, where products contained Tantalum, Tin, Tungsten or Gold.

**Dear Supply Partner,**

### Introduction:

Rolls-Royce is committed to the responsible sourcing of materials and sets a requirement that all products are sourced responsibly and verified as 'conflict free'. A critical element of our rolling due diligence activity is an annual campaign to understand and report the source and downstream custody of Tantalum, Tin, Tungsten & Gold.

Rolls-Royce has partnered with Assent to collect conflict minerals data from our suppliers. Due diligence for the 2024 reporting period was launched in November with an e-mail request for information sent to in-scope suppliers directly from Assent. For reference, the e-mail was sent from the following address: [compliancesupport@rollsroyce.dataportal.io](mailto:compliancesupport@rollsroyce.dataportal.io).

### Action Required:

- 1/ If you have responded to Assent with a completed CMRT Conflict Minerals Reporting Template, for 2024, please accept our thanks for your support.
- 2/ If you have not yet responded to Assent please do so by following the instructions contained in the Assent e-mail request. Your prompt attention is requested to ensure timely cascade to our customers, in advance of the regulatory disclosure deadline of 31st May.
- 3/ If you believe that your company is in scope but you have not received a request from Assent then please let us know via [conflict.minerals@rolls-royce.com](mailto:conflict.minerals@rolls-royce.com) so that we can address this in the required timeframes.
