

Notice to Suppliers

RRES 90009 - Requirements for Design and Development Activities

Originator: Pete Bilbie
Job Title: Engineering Quality Manager
Business Unit: Central Engineering Quality

NTS Number: 597
Issue: 1
Date: 15 January 2024

For the attention of the Engineering Design Manager and Engineering Quality Manager

Scope/Applicability:

All Rolls-Royce plc suppliers/partners who are contracted to supply Design & Development Activities in accordance with SABRe/GS3001.

Dear Supplier / Partner,

Introduction:

RRES 90009 is the Specification that defines the Requirements for Design and Development Activities carried out on behalf of Rolls-Royce in the supply chain.

This Specification has been updated to Revision N to incorporate changes for Suppliers to all Rolls-Royce Business' and also includes the recognition of AS13100 requirements which are now mandated specifically for Aerospace Suppliers who work in accordance with SABRe4.

Action Required

All Suppliers, within the Scope/Applicability above, should access the New Revision, via the Global Supplier Portal, and familiarise themselves the changes to ensure their Design Management Systems meet the requirements within the Specification.

Any questions or concerns regarding access to this specification or its applicability should be forwarded to your usual Rolls-Royce point of contact.
