

# Notice to Suppliers

## Civil Aerospace Operations Announcement

**Originator:** Warrick Matthews & Dave Deakin  
**Job Title:** Chief Procurement Officers, Civil Operations/GBS  
**Business Unit:** Civil Operations

**NTS Number:** 538  
**Issue:** 1  
**Date:** 15 May 2021

For the attention of the Managing Director

### Scope/Applicability:

All suppliers within the Rolls-Royce Civil Aerospace Supply Chain.

**Dear Supply Partner,**

### Introduction:

On 20 May 2020 we announced a major restructuring, predominantly of our Civil Aerospace business, to achieve total annual pre-tax cash savings of at least £1.3bn by the end of 2022. A key part of this restructuring programme was a review of our global manufacturing footprint.

In December we updated you on a proposal to transfer our Hucknall facilities, including employees, design and supply chain management for fabrications into ITP Aero. This transfer brings new capability to ITP Aero, with Hucknall becoming a critical part of the enlarged business, helping to secure the future of the site.

We can now confirm that as of Sunday 9 May 2021, ITP Aero has gained full ownership of the Hucknall facilities, the commodity of complex fabrications, including design engineering and supply chain management. Hucknall's current strong management team continue to lead the organization and its highly skilled workforce, ensuring a smooth transition as the site's operations fully integrate into the ITP Aero operating model.

We would like to thank the suppliers who have been working closely with us over the last few months for their support and professionalism in readiness for the transfer.

ITP Aero will continue to be an important partner for both Civil Aerospace and Defence businesses and I'm confident that we will continue to grow and develop this strong relationship and collaboration moving forward.
