

# Notice to Suppliers

## Cyber Security - Incident Response Webinar

**Originator:** Neil Brink  
**Job Title:** Supply Chain Cybersecurity  
**Business Unit:** Defence

**NTS Number:** 595  
**Issue:** 1  
**Date:** 22/12/2023

### Scope/Applicability:

All Rolls-Royce suppliers

**Dear Supply Partner,**

### Introduction:

With cyber-attacks on a relentless rise, Rolls-Royce and MxD, the National Center for Cybersecurity in Manufacturing, are hosting a webinar on how to protect yourself from and respond to such attacks.

Please join us for the Cyber Incident Response Webinar on January 17.

### Why Now?

You've told us that response to cyber incidents remains a top concern. You want to know how to prepare for an attack. And you want to know what to do if you are targeted, both immediately and longer term.

### Who You Will Hear From

For this webinar you will hear from Tim Wilkinson, Rolls-Royce's Global Head of Cyber Security Operations, and Colin Topping, Cyber Incident Director, who will be joined by Jela Trask, MxD's Vice President of Membership and External Relations. Neil Brink, a Rolls-Royce Cybersecurity Specialist, will moderate.

### What You Will Learn

This panel will detail what preparations should be in place; what to do in the first eight hours after an attack; and what a response over the 60 days after an attack looks like. Our experts will dig into the technical, legal, and communications factors you must consider. And we'll provide tips on cyber insurance, including what is covered and what it takes to obtain a policy.

Rolls-Royce and MxD are here to answer your questions.
