

Notice to Suppliers

Out of Sequence Working: Supplier Self-Assessments

Originator: Leslie Wanick French
Job Title: Chief of ME
Business Unit: Aerospace Procurement

NTS Number: NTS 633
Issue: 1
Date: 8 August 2025

For the attention of Quality Directors or similar role

Scope/Applicability:

All Aerospace Suppliers

Dear Supplier Partner,

Rolls-Royce would like to reinforce the importance of ensuring work is not undertaken out of sequence. While Rolls-Royce has not been involved in or affected by any recent events, we would like to take this opportunity to revisit the controls in our own supply chain. We wish to ensure that suppliers continue to work in sequence, follow all specified quality processes and deliver products that confirm to all relevant engineering standards.

Action Required:

From the date of this NTS onwards, Rolls-Royce requires suppliers to complete a self-assessment to ensure the risks associated with non-standard, out-of-sequence, and/or travelled work are being managed appropriately. Suppliers must:

1. Visit the SDRO Portal and access Supplier Quality Bulletin No: 25-001.
2. Complete the listed self-assessments as requested by Rolls-Royce.
3. If a supplier finds any instance of non-compliance, please raise this as a Notice of Escape following the recently updated processes detailed in NTS630 and NTS631.

If you have any questions, please contact your usual Rolls-Royce Quality point of contact.

Thank you for your continued cooperation.
