

# Notice to Suppliers

## Rolls-Royce Submarines Condition of Supply Good Practice Guide

**Originator:** Neal Coles  
**Job Title:** Supply Chain Quality Manager  
**Business Unit:** Submarines

**NTS Number:** NTS 642  
**Issue:** 1  
**Date:** January 2026

For the attention of Submarine Supply Chain Technical Leads, Logistics Operatives & Packaging Operatives

**Scope/Applicability:** Rolls-Royce Submarines suppliers

**Dear Supplier Partner,**

This notification is to share the Rolls-Royce Submarines (RRSL) Condition of Supply Good Practice Guide in relation to delivered goods to our warehouse facilities.

To improve right first time and the efficiency of the RRSL Goods Receipt process, RRSL Logistics Operations have produced a Condition of Supply Good Practice Guide which can be used by our supply chain partners. It is aimed at anyone involved in packaging and handling of Submarines products in support of onward delivery to RRSL warehouse facilities.

**Action Required:**

Please review, download, print and use the attached/enclosed Condition of Supply Good Practice Guide. Adoption of the content will reduce the number of delivery rejections at our warehouse facilities and increase the efficiency of our operations.

The Condition of Supply Good Practice Guide is also available in the 'RR Submarines Supplies' section of the Global Supplier Portal and in the 'Training Material' folder within the 'Rolls-Royce Standards' zone on Egress.

For any additional information or help with respect to the condition of supply of goods, please contact [QM-LOT.Central@Rolls-Royce.com](mailto:QM-LOT.Central@Rolls-Royce.com).
