

Rolls-Royce: Pressure Equipment Directive (PED) 97/23/EC

Originator: Alan Lee & Todd Walker
Job Title: Supplier Development Technical Manager
Business Unit: Energy- Purchasing

NTS Number: 312
Issue 1
Date:

For the attention of the Managing Director and Quality Manager.

Dear Sir or Madam,

Scope / Applicability:

All Suppliers/Partnering Organizations including sub-tier suppliers of the Rolls-Royce Energy Supply Chain required to provide EN 10204 3.1 certification.

Introduction:

This notice was designed to communicate the legal requirements concerning Pressure Equipment Directive (PED) 97/23/EC accreditation, Rolls-Royce Global Engineering Requirement (GER) 0016 and to clarify requirements to ensure that documentation errors are prevented.

If the Rolls-Royce data sheet calls out type 3.1 certificates, please ensure that the supplier understands that the Pressure Equipment Directive (PED) 97/23/EC of the European Parliament requires EN10204 3.1 certification from the originating manufacturer as well as that manufacturers PED certificate and accompanying schedule of approval or ISO certification to the standard required by the PED.

Additionally, in compliance with PED, at least one of the ISO or PED certificates must cover the date on which the 3.1 certificate was issued and must demonstrate that the organisation is engaged in the manufacture of the material purchased. This document must be issued by a competent body legally recognized in the EC.

If the Rolls-Royce Energy Systems data sheet calls out EN10204 3.1 certificates; the organization is expecting the receipt of the documentation described in the aforementioned paragraphs.

If you or your sub-tier is not qualified to the PED requirements and wants to become qualified, please use the following link:

[EUROPA - European Commission - Enterprise - Regulatory policy - NANDO](#)

These changes are mandatory and must be implemented with immediate effect. Should you be unable to provide these documents, the material will be deemed non-conforming and therefore unacceptable.

If you have any questions regarding these new requirements, please contact your Rolls-Royce Supplier Development Leader.

Action Required:

It is mandated that the supplier implement this over check into their Quality Management System at the earliest opportunity.

Rolls-Royce personnel will follow-up compliance to requirements during normal surveillance and audit activities.
