

# Notice to Suppliers

## Additional Guidance for DFARS Cybersecurity Requirements

**Originator:** Jason Kasper

**Job Title:** Supply Management Executive – Compliance

**Business Unit:** Defence

**NTS Number:** 545

**Issue:** 1

**Date:** 23 October 2021

**Scope/Applicability:** All Rolls-Royce suppliers with US Department of Defence subcontracts

**Dear Supplier,**

We are nearly a year beyond the release of the interim rule that introduced new cybersecurity requirements defined by DFARS 252.204-7020. Our previous communication about this rule can be found in a previous Notice to Suppliers, NTS 519. Most suppliers have now complied with this new requirement, but for those that are still working toward compliance, Rolls-Royce is providing some additional resources.

Here are links to two fact sheets that summarize the requirements contained within DFARS 252.204-7020.

- [Summary of 252.204-7020 requirements](#)
- [Summary of SPRS, PIEE, and SAM.gov](#)

In addition, Rolls-Royce is partnering with [MxD](#), a manufacturing institute that specializes in cybersecurity, to offer an awareness campaign to help our suppliers understand cybersecurity requirements, and obtain support to achieving compliance.

This awareness campaign will start with a webinar being offered on November 2<sup>nd</sup> and 9<sup>th</sup>. Please visit this link (<https://www.rolls-royce.com/sustainability/customers-and-suppliers/cyber-security.aspx#supplier-cyber-awareness>) to find more details and to register.
