

Quality Clause 245200 - US Coast Guard Inspection Requirements (02/14/19)

United States Coast Guard (USCG) inspection is required prior to shipment of components and/or raw materials from the Supplier's facility.

The Supplier is responsible to contact and schedule USCG surveyor inspection. The surveyor shall be notified what USCG rules apply when onsite and be provided copies of objective evidence for compliance as requested by the USCG.

To support the USCG visit, the Supplier must provide information listed below and confirm with the surveyor that it will be included on both the USCG certification report and USCG invoice sent to Rolls-Royce. This information can be obtained by the Supplier from the Rolls-Royce purchase order (PO).

- Rolls-Royce PO number
- Rolls-Royce PO line item number
- Rolls-Royce part number and revision
- Unique item heat lot or serial number (where applicable)
