### Scope/Applicability:

All Suppliers

**Dear Supply Partner,**

### Introduction:

We extend our ethical principles to our suppliers and partners through our Global Supplier Code of Conduct (Supplier Code). In order to do business together, we expect all suppliers to be ethical, responsible and to fully comply with all applicable laws and regulations. Our Supplier Code sets out the behaviours, practices, and standards we expect our suppliers to demonstrate and comply with, all of which are based on our own Rolls-Royce Code of Conduct, (Our Code) policies and standards. For 2023, we have updated our Global Supplier Code of Conduct to enhance alignment to the principles in Our Code and in light of increasing sustainability requirements in our value chain.

You can refer to the Rolls-Royce Global Supplier Code of Conduct 2023 by clicking [here](#) or going to [www.rolls-royce.com](http://www.rolls-royce.com) -> Sustainability -> Customers and suppliers

### Action Required:

No immediate action is required, but in line with our ongoing work on supply chain sustainability, you may be approached to complete a sustainability assessment and we ask you to respond to any such request promptly. We once again thank all our suppliers who have already completed this assessment and shared your results with us.
