

Notice to Suppliers

Supplier Quality Management System Requirements – GS3001

Originator: Neal Coles
Job Title: Submarines Codes & Standards Leader
Business Unit: Nuclear Submarines - Purchasing

NTS Number: 464
Issue: 1
Date: May 2019

For the attention of the Managing Director and Quality Manager.

Dear Sir or Madam,

Scope/Applicability:

All Suppliers and Partners who supply products or services related to Rolls-Royce Submarines Ltd contracts or purchase orders.

Introduction:

Supplier Quality Management System Requirements GS3001 has been amended to Addendum 002. The amendment relates to the change to our trading name (single legal entity), which has resulted in a need to revise GS3001 in order to avoid commercial complications.

No changes have been made to the document other than change in our trading name as shown below.

1 Purpose, scope and applicability

The purpose of GS3001 is to flow down the Rolls-Royce supplier quality management system requirements to all suppliers or partners who provide a product or service in support of purchase orders/contracts for Rolls-Royce Submarines Ltd (referred to as Rolls-Royce throughout this document). The scope of applicability relates to the Rolls-Royce external supplier network i.e. First-tier suppliers in receipt of a Rolls-Royce purchase order/contract. GS3001 is available to view and download from the Rolls-Royce Global Supplier Portal (GSP) https://suppliers.rolls-royce.com
