

Notice to Suppliers

RRSL Suppliers – Egress Workspace

Originator: Rhydian Jones
Job Title: Head of Supply Chain Capability & Development
Business Unit: Nuclear Submarines – Supply Chain

NTS Number: 575
Issue: 1
Date: 16th May 2023

For the attention of Managing Director,

Scope/Applicability:

All suppliers to Rolls-Royce Submarines (RRSL)

Dear Supply Partner,

Introduction:

This notification is to inform you of a new online portal being implemented by Rolls-Royce Submarines Limited (RRSL) called Egress Workspace.

Egress Workspace is a secure, cloud-based platform allowing RRSL to communicate with the external supply chain more effectively which will eliminate waste and improve collaborative working.

There are two Egress Workspaces being launched:

Contract Management Workspace

This is an easy-to-use online workspace set up to allow Buyers to digitally communicate, negotiate & agree (via e-signature) contractual documents for aspects such as:

- Terms & Conditions
- NDA's
- Export Control DECAF Forms
- Long-Term Supply / Fixed Pricing Agreements

Supply Chain Planners can also use this workspace to share action trackers & manage delivery programmes.

This is an “Official” workspace, for documentation security rated up to “Official” to be shared.

Digital Doc Pack Workspace

A dedicated workspace allowing suppliers to digitally share lifetime quality records (LTQR) with RRSL departments. It will allow efficient and immediate communication between suppliers and RRSL and is supported by digital sign-off which should reduce travel and remove the need for printing and scanning.

This is an “Official Sensitive” workspace, for documentation security rated up to “Official Sensitive” to be shared.

You will shortly be receiving a 3rd party declaration document to read, sign and return to your RRSL contact. This will enable you to be granted access to the Egress Workspace.

Action Required:

Please circulate this notification within your organisation as appropriate.

Egress Support:

The Buyer will be your main point of contact for queries regarding the Contract Management Workspace.

The ME-P / Supply Chain Planners will be your main point of contact for queries regarding the Doc Pack (LTQR) Sharing Workspace. Generic how-to guides are also available within the Egress Workspace that will help you get set-up.
