

Update to the Rolls-Royce Global Supplier Code of Conduct

Originator: Gordon Tytler
Job Title: Director of Procurement
Business Unit: Procurement

NTS Number: 453
Issue: 1
Date: January 2019

For the attention of the Managing Director

Dear Sir or Madam,

Scope/Applicability:

All suppliers and partners who supply products or services related to Rolls-Royce plc contracts or purchase orders.

Introduction:

The purpose of this communication is to announce an update to the Rolls-Royce Global Supplier Code of Conduct.

At Rolls-Royce we have a zero tolerance approach to improper business conduct of any sort. It is our intent to work only with suppliers and external partners who share this principle. To ensure that our suppliers are clear about what is expected, we have revised our Global Supplier Code of Conduct (the Code). This replaces our previous Code, issued in 2015.

Our Code sets out the behaviours, practices and standards we expect our suppliers to demonstrate and comply with, all of which are based on our own Rolls-Royce Code of Conduct, policies and standards. We expect our suppliers to be ethical, responsible and to fully comply with all applicable laws and regulations.

Our Code is available to download via our company website and Global Supplier Portal, <https://suppliers.rolls-royce.com>.

Action Required:

Suppliers are expected to conform to all aspects of the Rolls-Royce Global Supplier Code of Conduct, as mandated through the Rolls-Royce General Conditions of Purchase.

NTS Category Type:

Regulatory/ Legislation

Authorised by:

Gordon Tytler

Director of Procurement, Rolls-Royce plc
