

## RR Energy Systems - Package and Driven Equipment: Preservation, Packing and Labeling Specification Revision

**Originator:** Todd Walker / Alan Lee / Joey Putnam  
**Job Title:** Supplier Development and Technical Manager  
**Business Unit:** Energy- Purchasing

**NTS Number:** 325  
**Issue** 2  
**Date:** April 2012

For the attention of the Managing Director and Quality Manager.

**Dear Sir or Madam,**

### **Scope / Applicability:**

All Suppliers to Rolls-Royce Energy Systems - Package and Driven Equipment.

### **Introduction:**

For clarification purposes, this NTS is being re-issued. GER 0102 applies to Rolls-Royce Energy Systems - Package and Driven Equipment suppliers only.

The purpose of this notice is to communicate to all the supplying parties to Rolls-Royce Energy about the revision to the Preservation, Packing and Labelling Specification (GER 0102).

In an effort to continually improve the quality of supplied product to Rolls-Royce Energy and our Customers, the Preservation, Packing and Labelling Specification (GER 0102) has undergone a significant revision. These changes to GER 0102 rev 7 include clear, detailed instruction on how to properly pack and label product.

In addition to the changes to GER 0102, the specific Protection, Packaging and Labelling requirements from SABRe have been included into the content of GER 0102.

### **Action Required:**

These changes / revisions are mandatory and must be implemented to meet the point of embodiment specified on the GER as 3 months after the release of the revision which was February 14th 2012. All product shipping to RRESI on or after May 14th 2012 must meet the requirements of GER 0102 revision 7.

If you have any questions regarding GER 0102, please contact your Rolls-Royce Representative.

**NTS Category Type:**  
**General Information / Communication**
