

Notice to Suppliers

FAIr delegation for suppliers

Originator: Richard Parr
Job Title: Chief of Manufacturing Engineering
Business Unit: Installations

NTS Number: 476
Issue: 1
Date: 26 October 2019

For the attention of the Quality Manager

Dear Sir or Madam,

Scope/Applicability:

To suppliers of Rolls-Royce Civil Aerospace product

Introduction:

As part of our drive for transformation to create a more responsive and efficient supply chain, we have recognised the need to disseminate the approval of the First Article Inspection report (FAIr) activity to the supplier.

Suppliers that are eligible for this approval will be contacted by your Supplier Management Team representative to participate in this activity.

To be able to assess the competency of suppliers for FAIr approval, nominated supplier representatives will be asked to attend a training course and sit an exam. On successful completion the supplier will be awarded FAIr approval by Rolls-Royce and reflect the supplier's approval within the net-inspect application.

Periodic audits of new suppliers and existing delegated suppliers will be conducted to maintain approval through a nominated 3rd party representative for Rolls-Royce along with periodic FAIr sample reviews conducted by Rolls-Royce.

Action Required:

Eligible suppliers who are contacted by Rolls-Royce should nominate representatives to attend the training.

NTS Category:

Engineering/Technical
