

Rolls-Royce Nuclear Sector (submarines) SABRe STEP update / mandate

Originator: Mark Finney
Job Title: Supplier development Leader
Business Unit: Purchasing

NTS Number: 321
Issue 1
Date: January 2012

For the attention of the Managing Director and Quality Manager.

Dear Sir or Madam,

Scope / Applicability:

The scope of this NTS is confined to the SABRe STEP (Supplier Total Evaluation Process).

This NTS is applicable to all Rolls-Royce Nuclear Sector (submarines) suppliers / partners who receive a supplier scorecard.

Introduction:

Rolls-Royce Nuclear Sector (submarines) constantly strives to improve its products and services, and to develop a supply chain capable of delivering world class performance.

Rolls-Royce Nuclear Sector (submarines) has for some time been monitoring the performance of its suppliers / partners using the supplier scorecard. The supplier scorecard also helps Rolls-Royce to rank a suppliers performance relative to the total supply chain.

Supply chain performance can be improved to reduce the number of disruptions to Rolls-Royce operations, therefore any supplier providing products and / or services to the Rolls-Royce Nuclear sector (submarines) business will be subject to all aspects of SABRe STEP as a consequence of poor performance, where previously they were exempt.

Effective from 26th January 2012.

Action Required:

All suppliers are required to acquaint themselves with all aspects of the SABRe STEP process, which is available to view and download from the Rolls-Royce Global Supplier Portal (GSP) <https://suppliers.rolls-royce.com>
