

RRES90057 – Materials and processes to be avoided

Originator: David Cross
Job Title: Chief of Materials – Design Services
Business Unit: Engineering and Technology

NTS Number: 401
Issue: 1
Date: 27th January 2017

For the attention of the Engineering Director and Quality Manager.

Dear Sir or Madam,

Scope/Applicability:

All suppliers to our civil and defence aerospace businesses.

Introduction:

The Rolls-Royce Management System is supported by a number of procedures and specifications. Amongst these, RRES90057 defines certain materials and processes that are to be avoided on engine components because they can have a potentially detrimental effect on the function of the engine.

Action Required:

All suppliers are to ensure that RRES90057 is complied with. A copy can be accessed via the [Global Supplier Portal](#). Any questions or concerns regarding this specification should be forwarded to your usual Rolls-Royce point of contact.

NTS Category:

Engineering / Technical
