

Notice to Suppliers

Rolls-Royce Digital Supply Chain App

Originator: James Buck
Job Title: Digital Manufacturing Manager
Business Unit: Installations

NTS Number: 469
Issue: 1
Date: August 2019

For the attention of the Managing Director.

Dear Sir / Madam,

Scope/Applicability:

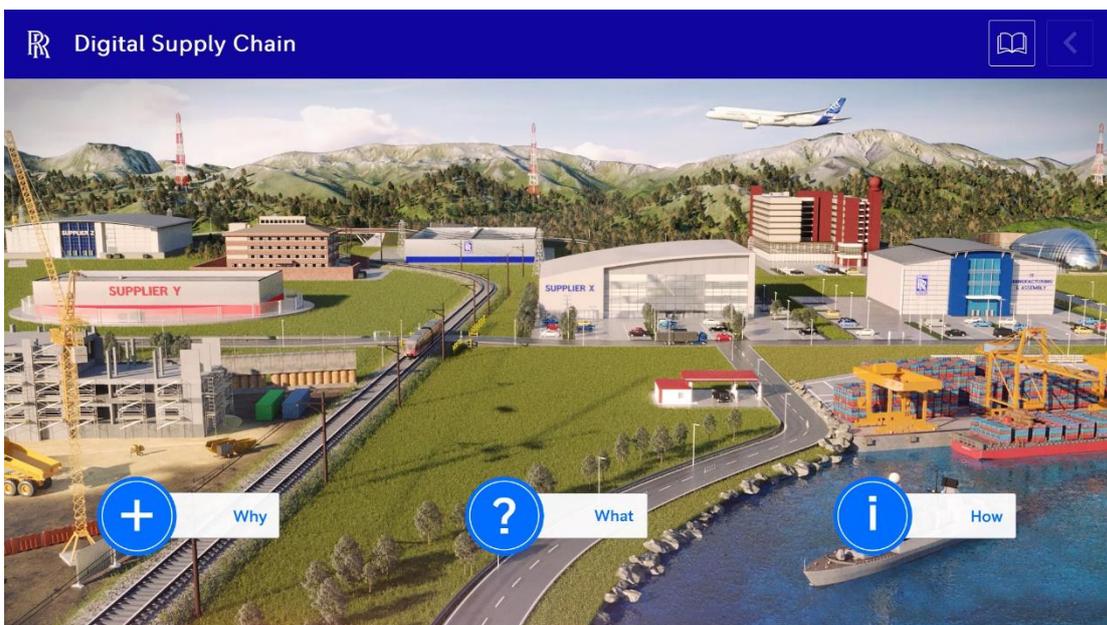

All suppliers in our Civil Aerospace supply chain.

Introduction:

The Rolls-Royce Digital Supply Chain app provides you with an interactive tool with access to information and guidance material concerning **why** we need to enable a digital supply chain, **what** we mean by a digital supply chain and **how** we can work together to enable this capability.

Within the tool you will learn about what our Supply Chain **'Digital Basics'** are and for permitted users only, access to our **'Digital Minimum Standards'** criteria. This information will act as a guideline when completing your Digital Minimum Standards assessment, which is only applicable to suppliers operating Integrated Supplier Scorecard / Supplier Engagement Plan (ISS/SEP) with an active Technology Engagement Plan (TEP).

The tool will support you and the Rolls-Royce supplier facing team in enabling a digital supply chain through the ISS/SEP approach. Not all suppliers will be engaged in the ISS/SEP process, however, we encourage all suppliers to review the app to help inform their digital roadmaps.

Action Required:

Access the Rolls-Royce Digital Supply Chain app to learn about the 'Digital Basics' and 'Digital Minimum Standards' (where applicable).

Access the Digital Supply Chain web-app [here](#).

If you are accessing this link via an android device, there is an app available on the [Google Play store](#). For IOS devices, please follow the web-app link above. For optimal user experience, access the web-app via desktop in preference to the mobile versions. More information can be found on the [Global Supplier Portal](#).

For suppliers operating ISS/SEP with an active Technology Engagement Plan; the Digital Minimum Standards assessment will be made available to you directly within the coming weeks via your supplier facing Digital Champion or Technology Interface.

Please contact DigitalSupplyChain@Rolls-Royce.com if you have any questions.
