

Quality Clause 245100 - OEM Quality Documentation Requirements (11/28/18)

Required quality records in support of product compliance (e.g. non-destructive test, certified material test report, dimensional inspection reports, regulatory body inspection certifications, etc.) associated with this purchase order shall be provided to the Buyer via email (see instructions below).

With regard to equipment supplied to ABS [classed] vessels, for which specific hardware certification is required, such certification shall be provided to Rolls-Royce. If equipment supplied requires ABS certification, the Supplier must comply with Rolls-Royce Quality Clause 240601.

Email documentation to RRNMI.Certs@Rolls-Royce.com. The Rolls-Royce purchase order (PO) number and Rolls-Royce part number shall be referenced in the email subject line in the following format: "Report(s) for PO XXXXXXXXXXXX Part Number YYYYYYYYYY" or "Report(s) for PO XXXXXXXXXXXX, Multiple Part Numbers".

Supplier emails with attached files must be less than 10 MB in size due to Rolls-Royce email system limitations. We recommend the email subject line format: "Report(s) for PO. XXXXXXXXXXXX, Part Number YYYYYYYYYY 1st of X Emails" should multiple emails be required due to file size limitations. Documentation must be legible and of reproducible quality. Files cannot contain macros or executables. No hard copy certifications are required to accompany the shipment.
